- Diagnostic biologie moleculară (PCR)

Echipamente

Microscopie

Microscopie imunfluorescență

Linie completa test PCR

Linie completa test ELISA

-Teste rapide (*Giardia*, *Leishmania*, *Dirofilaria*)

-Medii de cultura de tip DTM

-Kit teste larvoscopice

-Kit metode de sedimentare

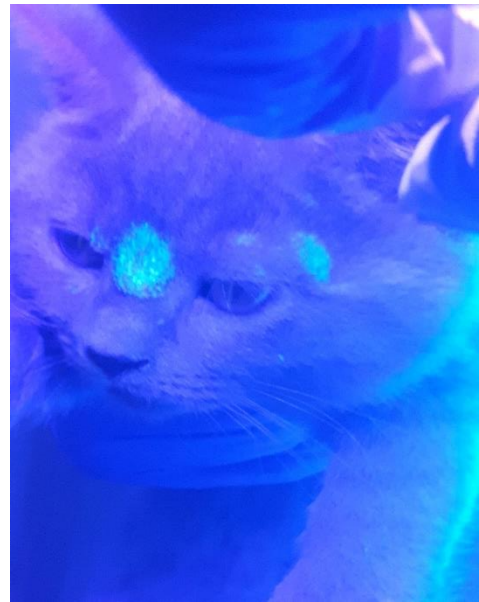

Cazuri interesante:

Demodicoza la hamster

Dermatita alergica la intepatura de purici

Dermatofitoza

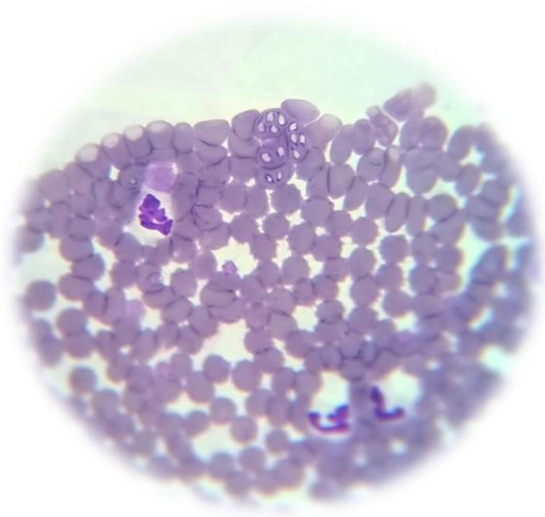

Citologie

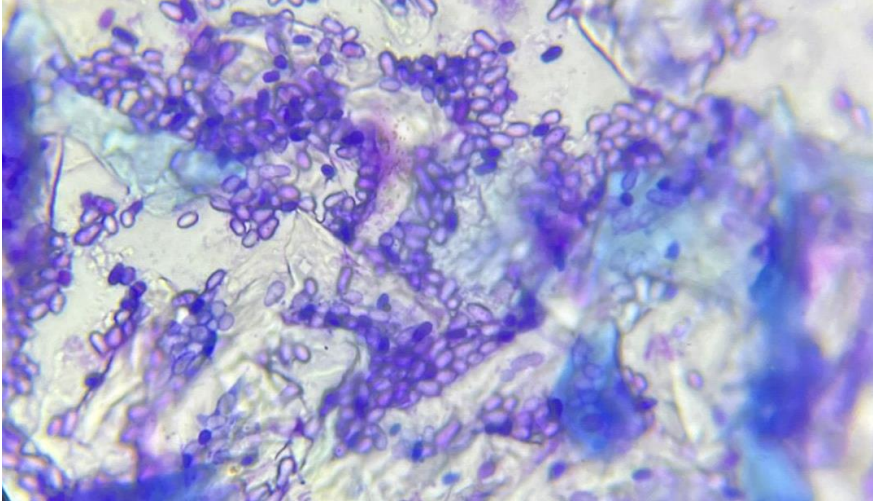

Pemfigus foliaceu

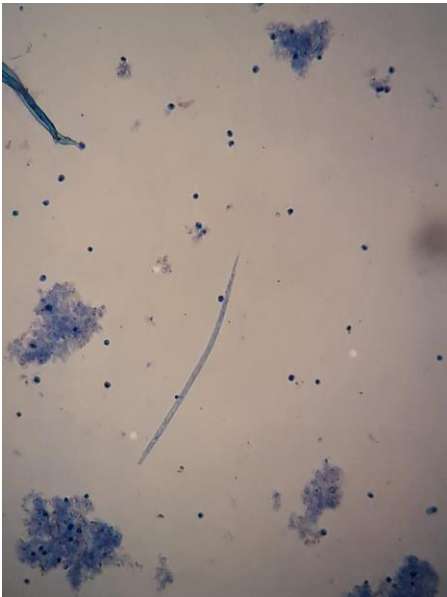

Biopsie

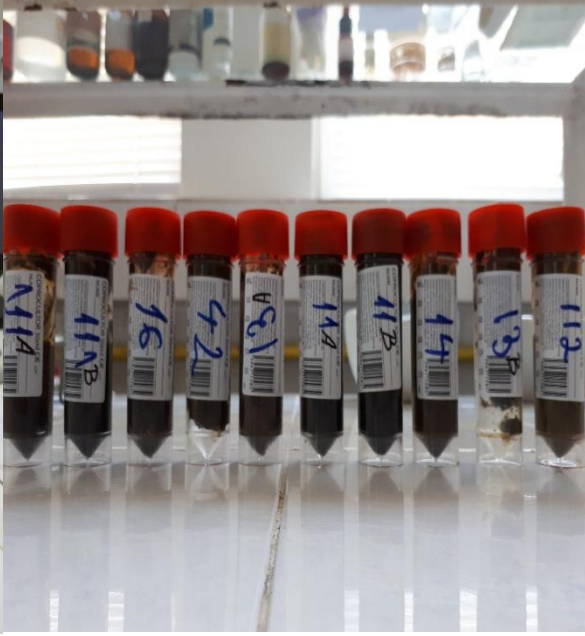

Babesia

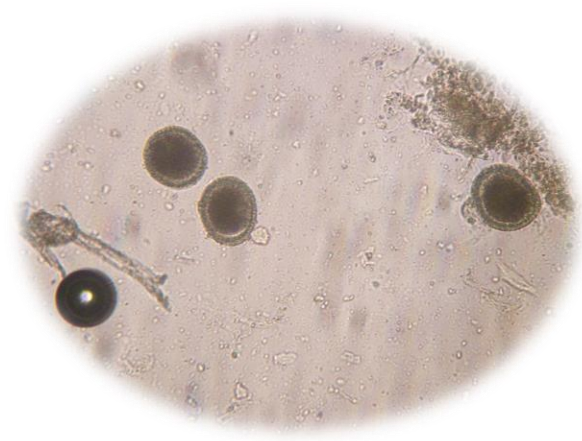

Malassezia

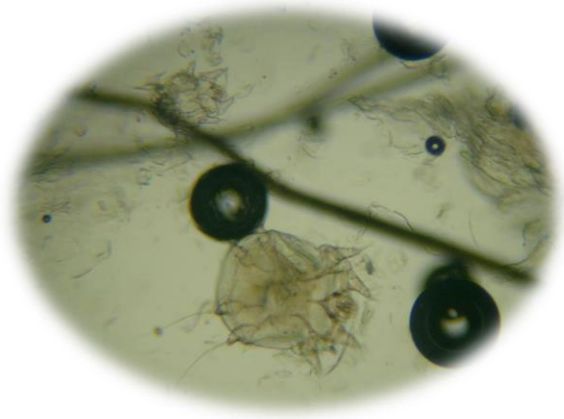

Dirofilaria

Anisakidoza

Toxocara

Sarcoptes

Before.....After

Demodex

Purici (C. felis)

Căpușe
